

SONET

The Power to Surprise

Big on personality

Along with its tough and dynamic appearance, the new Kia Sonet offers some truly refreshing combinations: Ruggedness and refinement. Roominess and fuel economy. Simple controls and forward-thinking technology. Compact size and endless possibilities.

SONET

Charisma to spare

To match its go-anywhere capabilities, the new Kia Sonet features sporty SUV contours and trim elements, along with a versatile rear hatch that makes traveling and running errands a breeze. It's the perfect combination of fun and functionality.

1. Full LED headlamps with LED DRLs The alluring shape of the Sonet's front grill and light housings is inspired by the eyes and nose of a tiger.

2. LED rear lamps Heartbeat-pattern LED tail lamps are both stylish and functional.

3. C-pillars The sturdy C-pillars behind the rear doors feature sporty trim accents that highlight the shapes of the tailgate and rear side windows.

4. Diamond-cut 16-inch alloy wheels Alloy wheels with smooth, angled silver spoke elements give the impression of motion, even when standing still.

4.2-inch supervision cluster A full-color instrument cluster keeps you abreast of what's going on under the hood.

Wireless smartphone charger Charge a compatible mobile phone wirelessly on the cooled pad at the front of the center console.

Bose sound system A 7-speaker BOSE Premium Sound System includes loud Super65 drivers in front and an Nd woofer in the rear for stunning audio performance.

Rear View Monitor (RVM) When the transmission is in reverse, the 8-inch audio display shows the area behind the Sonet, with parking guidelines superimposed on the video image.

High-tech meets low-stress

View the road from a commanding height, with sufficient comfort and technology to keep your mind at ease. The refined Kia Sonet gives everyone plenty of room to stretch, and offers convenient new connectivity to help you stay informed and entertained.

Quality time, all the time

Everyone can ride comfortably on long trips thanks to plenty of front and rear seat headroom and legroom. The seats are firm and comfortable, while cupholders, USB outlets, and storage areas are well within reach of every occupant.

Precision-enhanced simplicity

A well-matched drivetrain offers reliable and invigorating performance and handling around town. Safety and performance are integrated better than ever before thanks to computational power and a new platform design.

6 airbags & remarkable rigidity The Sonet offers the protection of a 6-airbag SRS system. High strength steel is applied throughout to improve rigidity, redirect impact forces, and protect the cabin and its occupants.

Drive mode & traction control On automatic models, the supervision cluster displays the status of the drive mode and traction control systems.

Smartstream G1.5
Maximum power: 115 ps
Maximum torque: 14.7 kg·m

Parking Distance Warning (PDW) With ultrasonic sensors mounted on the front and rear bumpers, PDW warns of any obstacles when you maneuver into tight spaces.

Hill-start Assist Control (HAC) When you are stopped on an incline, HAC momentarily holds the brake as you move your foot to the accelerator, so you can make a safe, smooth start.

Tire Pressure Monitoring System (TPMS) If a tire's pressure drops below a defined level, a warning on the supervision cluster shows you which tire is affected.

CVT and 6-speed manual transmission The CVT automatically matches the effective ratios to engine and driving conditions. The 6-speed manual transmission lets you switch gears quickly and precisely.

Gear up for adventure

Maybe you're setting off on your own expedition, or maybe you just like to look prepared for one. The Sonet is available with exterior and interior options and accessories for motorists who are ready to explore the back roads or city boulevards.
