

The Power to Surprise

Kia is the newest and most exciting force of change in the automotive world and we are ready to change the way you feel and think about driving. More than just a promise, we are committed to making driving a true pleasure for customers across the globe. With youthful and dynamic styling and the latest in advanced technologies, Kia cars are turning heads the world over with the power to surprise. From the Picanto to the Telluride, Kia offers a full lineup of sedans, SUVs and MPVs that are not only practical and stylish but downright exhilarating to drive. Keep your eyes on Kia because our best has yet to come.

About Kia Motors Corporation

Kia Motors (www.kia.com) is a maker of world-class quality vehicles for the young-at-heart. Founded in 1944, Kia today sells around 3 million vehicles a year in 190 countries, with more than 52,000 employees worldwide, annual revenues of over US\$49 billion and manufacturing facilities in five countries. Kia is the major sponsor of the Australian Open, official automotive partner of FIFA, official partner of the UEFA Europa League, and main partner of League of Legends European Championship 2019. The company's brand slogan – "The Power to Surprise" – represents Kia's global commitment to surprise the world with exciting, inspiring experiences that go beyond expectations.

A Masterpiece of Our Time
CADENZA

Substance and beauty are deeply rooted in technology

Behold a virtuoso among today's sedans. Deploying smart technology, thrilling performance and undeniable allure that begins with a larger concave grille inspired by classic motorsport, the Kia Cadenza gives new meaning to modern luxury.

Its athletic grace
is palpable from a distance

A sweeping profile. A contour line that flows from headlamp to taillamp.
A longer wheelbase. And rear quarter glass that extends past the door.
The lines say it all. This is a luxury sedan built for dynamic performance.

Its soul emerges and yearns for the road

The view of the Cadenza that best captures its road-taming spirit is the one you'll never observe for yourself. Because you'll be busy at the wheel reveling in its robust powerplant and nimble suspension.

A parting glimpse of automotive design perfection

The Cadenza even knows how to make a dramatic exit. The broad, chrome accented deck lid and the taillights with a new LED signature convey stability and class, while the rear profile flows gracefully down to the subtle spoiler, offering a lasting impression of a sedan that stands out from the crowd.

Clean, simple lines
put the mind and the body at ease

The interior of the Kia Cadenza sets a new standard for luxury with a cleaner, more elevated arrangement of instruments all around its upscale cabin. Its refined interior design and high-grade materials convey substance and tranquility.

Head-Up Display (HUD) Key driving information is projected in vivid color onto the windshield in the driver's line of sight. Displayed contents are customizable and brightness is automatically adjusted according to the intensity of light outside.

12.3" TFT-LCD cluster The Cadenza's main instrumentation appears in the supervision cluster. Vehicle speed, engine speed and blind spot monitoring can all be viewed here, just below your line of sight.

Bluetooth hands-free Built-in Bluetooth® connects your compatible mobile devices for music streaming and hands-free mobile communication.

Harman/Kardon premium sound system An available Harman/Kardon premium sound system features an external amplifier that powers 12 speakers including an 8" subwoofer (pictured below).

harman/kardon®

All the data you need
with the least possible distraction

The Cadenza keeps a wealth of information on hand, but intelligently filters out all but the essentials you need to stay focused on the road ahead. Instruments are intuitively positioned so that the driver's line of sight always remains priority number one.

Wireless smartphone charger Charge a compatible mobile phone wirelessly on the charging pad located on the front center console bin. The display shows orange while charging and turns green when charging is complete.

12.3" navigation system A large high-resolution panoramic display presenting data for navigation, audio, climate and other vehicle functions can be split into three views according to your preference.

Paddle shifters Positioned at your fingertips behind the steering wheel, paddle shifters add a sporty dimension to your driving pleasure. Lightning-quick gear changes immerse you in the world of high-performance driving.

An expansive space
where the journey becomes the reward

With its top-of-the-range front seat headroom and rear legroom, high-quality interior trim, and upholstery choices like Nappa leather with supple quilting, the Cadenza's spacious interior is both relaxing and inspiring.

Immerse yourself in a true oasis of comfort

Behold the building blocks of the perfect ride, from your seat's position, the armrest beside you and the view above you to the soft textures at your fingertips and even the thoughtful way the variable-speed power windows smoothly open and close.

Panoramic sunroof The electrically controlled three-piece panoramic sunroof adds an airy openness to the interior ambience.

Rear seat comfort and convenience The Cadenza offers rear passengers firm, comfortable seats with plenty of headroom and legroom. Door window shades offer privacy and protection from the sun, while the center armrest includes not only drink holders, but also a power outlet and audio controls that let passengers adjust the audio settings for the rear of the cabin.

Ventilated seats Ventilated front seat cushions and seat backs provide soothing airflow to keep you cool on hot days.

Power driver's seat with cushion extension The 14-way power driver's seat offers an electric seat-cushion extension that lifts and slides forward from the front of the seat for added leg support and comfort.

Hassle-Free, Enjoyable Driving

DRIVE WISE is Kia's ADAS (Advanced Driver Assistance System) technology initiative dedicated to the future of driving pleasure as well as occupant and pedestrian safety. It seeks to eliminate fatigue and tedium from daily driving by automating routine tasks such as finding more efficient routes, detecting potential hazards, providing intuitive alerts, and intervening when necessary to help avoid potential collisions. DRIVE WISE technologies even help drivers maintain a safe distance from vehicles in front, manage blind spots, and handle tight parking spaces and other stressful challenges. By taking care of the hassles of driving, DRIVE WISE promotes safety, happiness and peace of mind.

Using the latest sensor technology and intelligent data processing of Kia's state-of-the-art driver assistance system, the Cadenza helps you stay aware of your position on the road and the movement of the vehicles around you, while even taking actions to protect you in dangerous situations.

Responsive protection
for occupants and others on the road

Blind-Spot View Monitor (BVM) Using the around-view cameras to monitor the sides and rear of the vehicle, the BVM employs visual alerts when it detects vehicles in the blind spot for easier and safer lane changes. When the turn signal is engaged, BVM shows a live feed of your blind spots of the indicated lane on the instrument gauge cluster display.

Blind-Spot Collision-Avoidance Assist (BCA) BCA uses rear corner radar sensors to monitor your blind spots, and alerts you if it detects a vehicle encroaching into those areas. Going beyond earlier BCW systems, when a vehicle approaches the blind spot while the Cadenza is veering into the approaching car's lane, BCA actively applies brake pressure to the outside front wheel to help keep the Cadenza in its lane.

High Beam Assist (HBA) Make nocturnal driving even less stressful with High Beam Assist. The system recognizes oncoming vehicles at night, switching headlights between high and low beam automatically.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA) This system monitors the areas to the right and left when the vehicle reverses out of a parking space and alerts the driver of any approaching traffic on either side using the rear corner radar. It takes over braking when needed to prevent potential accidents.

Lane Following Assist (LFA) LFA helps detect lane markers on the road with a front view camera at the front windshield, and assists the driver's steering to help keep the vehicle between lanes.

Forward Collision-Avoidance Assist (FCA) When the risk of a frontal collision is detected, the driver is warned and, if necessary, FCA may actually apply the brakes to help reduce or prevent damage or injury from a possible impact.

Smart Cruise Control (SCC) SCC uses a radar sensor at the front of the vehicle to monitor the distance between your Cadenza and the vehicle ahead. To maintain a predetermined safe distance, it will apply the brakes, and even stop the car, until the vehicle ahead proceeds.

Lane Keeping Assist (LKA) When the vehicle strays from its lane, the system sets off a visual and sound alarm and automatically steers the vehicle to prevent it from moving out of its lane.

Driver Attention Warning (DAW) DAW helps you stay awake while driving. When the system senses inattentive driving patterns, an audible sound and a message to take a break will bring this to the driver's attention.

Like an extra set of eyes, DRIVE WISE gives you vital information, including visual cues, to help you maneuver safely in almost any driving and parking situation.

Technology to the rescue with eyes all around you

Safe Exit Assist (SEA) Using a pair of rear corner radar, SEA detects cars approaching from the rear and cautions passengers who may intend to exit the vehicle.

Around View Monitor (AVM) When you are parking or moving below 15 km/h, this system combines four wide-angle images from cameras at the front, rear and sides of the vehicle, offering a seamless, bird's-eye view of the space around the vehicle. You can zoom in and out of high-definition images on the panoramic 12.3 inch center monitor.

There's nothing passive
about our commitment to safety

Thanks to the latest innovations in metals and adhesives, the Cadenza offers a ride that handles stress with grace, as well as a vastly improved safety cage that has been tested in countless crash simulations and actual collision tests.

51% AHSS application

The Kia Cadenza uses more than 51% Advanced High Strength Steel (AHSS), which is more than a 100% increase from the previous model. This equates to phenomenal body rigidity, enhancing cabin protection as well as dynamic performance.

18 zones with hot-stamped components

The Kia Cadenza features hot-stamping of components in 18 core stress areas, a 260% increase over the previous model. The strengthened body structure helps provide improved crash protection.

110m of structural adhesive

With more than six times as much structural adhesive applied compared to the previous generation, the Cadenza is more rigid yet lighter, and features improved noise, vibration and harshness.

9 airbags for unsurpassed protection

To help protect occupants and potentially reduce injuries in the event of a collision, the Cadenza offers driver, front passenger, two front-side, two rear-side, and two side-curtain airbags, as well as a driver's knee airbag.

8-speed automatic transmission A lighter, more durable, 8-speed automatic transmission is paired with the 3.3 GDI engine. Additional gears offer more power on tap and better efficiency covering more speed ranges.

3.3 GDI gasoline engine Max. power of 284 ps @ 6,400 rpm, peak torque of 34.3 kg · m @ 5,200 rpm

3.5 MPI gasoline engine Max. power of 290 ps @ 6,600 rpm, peak torque of 34.5 kg · m @ 5,000 rpm

Leaner and meaner with smooth sophistication

Quiet and fuel-efficient, the two engines available on the Cadenza offer bracing mid- and low-range torque. Each is teamed up with a state-of-the-art automatic transmission to offer rousing acceleration and remarkably smooth gear changes.

The romance begins
and lasts long after the drive has ended

Confidence and competence make for an invigorating drive. With its intelligent take on luxurious motoring, the Cadenza engages you long after you've parked it for the night. But there's no need to worry as tomorrow is another day and another drive.

Luxury is where function meets fascination

The Kia Cadenza is available with a wealth of intriguing and useful features designed to enrich your life. Combining value, ingenuity and enjoyment, they add up to class-leading luxury.

LED headlamps The quaduple LED headlights with restyled DRLs provide crystal clear vision in any weather condition while giving the Cadenza a sophisticated and distinct look.

Turn signal lamps Turn signal lights are stylishly integrated into both sides of the lower bumper and ensure that your intention to turn is clearly visible to others on the road.

Rear lamps The LED rear combination lamps with a signature dashed graphic illuminate instantaneously with a bright, even glow to leave an unforgettable presence behind.

Emblem-integrated boot release button Need access to Cadenza's extensive trunk? Don't hassle with finding a hidden trunk release. Just gently press the Kia emblem on the deck lid and the boot automatically opens.

Rain sensors Located behind the rear view mirror, intelligent sensors automatically activate the wipers when rain drops are detected on the windshield.

Power rear sunshade A convenient one-touch mechanism raises or lowers the automatic rear glass curtain for better privacy while helping keep the cabin cool in the summer heat.

Rear door sunshades Retractable manual rear-door window sunshades help passengers and stowed cargo stay cool on sunny days.

Safety power windows on all doors For enhanced safety, the windows on all doors automatically stop and roll down when an obstruction is detected.

Auto defogger system Sensors detect any condensation forming on the inside of the front windshield and automatically turn on the defogger for maximum visibility and safety.

Integrated Memory System (IMS) IMS allows you to store seat and side mirror position preferences for two drivers.

Electric Parking Brake (EPB) Apply the parking brake simply by pulling a button so that you never have to worry again about whether or not it's properly engaged.

Tire Pressure Monitoring System (TPMS) TPMS keeps track of the pressure of each tire and informs you which tire is in an under-inflated state.

USB ports Flash drives and other compatible mobile devices can be connected via the USB port and fast-charging outlet.

8" display audio Enjoy a range of connectivity features including Apple CarPlay™ and Android Auto™. Stay connected with friends and family even while on the road.

Supervision cluster with 4.2" color screen The standard 4.2" intelligently-designed supervision cluster provides outside temperature and other essential vehicle and trip information.

Dual-zone Full-Auto Temperature Control A standard dual-zone full-auto temperature control system gives the driver and front passenger separate controls for temperature and fan speed.

Visual and tactile pleasures

A choice of sophisticated interior colors and materials help create a relaxing and upscale cabin ambience. Make the Cadenza a reflection of your inner desires.

Whether you love getting out into the great outdoors, or simply enjoy living in a more sustainable balance with the ecosystem, you have found a soulmate in Kia Motors.

Environmental preservation and social responsibility are top priorities at Kia, and we back up our commitment with tangible actions. Our EcoDynamics sub-brand, established in 2009, designates the most eco-friendly cars within each Kia model range that showcase our new fuel-stretching and emission-cutting technologies such as hybrid, plug-in hybrid, electric and hydrogen fuel cell powertrains. We are also building a clean production system, raising the resource recovery rate, designing vehicles

with the disposal phase in mind, and increasing energy efficiency. Meanwhile, we are adopting more and more environmentally friendly materials in our cars, selected for their composition, biodegradability and bio-inspired technology. For example, to reduce our carbon footprint, we are replacing oil-based materials with plant-based materials wherever possible.

As you can see, we at Kia Motors are committed to finding fundamental solutions to cutting energy consumption and combatting climate change. If you feel the same way about preserving the environment and ensuring a brighter for the younger generation, then we have just the vehicle for you.
